App has sidebar with following options:
1. **Home Page**
2. **Today's Task**
3. **Completed Task**
4. **Setting Current Page**

Home Page

At Root Level
1. Add Button (only insert into DB)
2. Design Card layout
3. Populate Recycler View (with some default description for Root)
4. Handling events on Card: Single Click expand; double click same Activity with updated root.
5.
